	Merge remote-tracking branch 'origin/master'	1 month ago by Pair Programming	
	Merge remote-tracking branch 'origin/master'	1 month ago by Pair Programming	3 ▶
	"Working on compass code - Jesse"	1 month ago by Pair Programming	
	CurrentLocationTest	1 month ago by dulcetlife	16 ▶

- **Deployment:** Apple's App Store:  
<https://itunes.apple.com/us/genre/ios/id36?mt=8>

- Difference between initial proposal and final project:
  - We were not able to implement the linking between two phones.
  - We were not able to implement a database for stored locations.
  - We did not implement sign in with Google or Facebook.
